The Board of Trade. The meeting for the formation of a Board of Trade was not so large as we could have desired to see, but it evinced the right sort of spirit and gave evidence that the project will be consumated in the right way. The subject of a Line of Packets to Paducah was discussed, and a committee appointed to mature

a plan. Judge Foster was called to the chair, and H. O. Babcock was appointed Secretary. Mr. Hornbrook addressed some very forcible and sensible remarks to the meeting upon the importance of extending the circle of our trade and establishing a Line of Packets.

The following gentlemen were appointed committee to report a plan of organization for the Board of Trade at the next meeting: H. D. ALLIS, H. C. GWATHMEY, E. S. BABCOCK, CHAS. S. WELLS, GEO. FOSTER, G. W. RATHRONE

committee to digest a plan for starting a line of Packets to Paducah: J. WESLEY HUGHES, M. A. LAWRENCE, LEWIS HOWES.

THE STORM IN SULLIVAN COUNTY .- We are informed by a merchant living in the county that during the hail storm in Sullivan county, hogs eight months old had their backs broken and were killed by the hail! The hail stones were as large as lien's eggs. It will be seen by reference to our dispatches that a storm of like character visited Mis-

Gangs of Desperadoes.

Associated gangs of thieves and desperadoes HARPER for July, are almost as dangerous in this State as they evere wre in Arkansas. The Vinconnes Gazette says: "It has been rumored that a gang of thieves, robbers, counterfeiters and desperate characters generally, has its head quarters some where along the Wabash bottom, in Crawforord county, Ills. It is said that from their hiding place, they sally forth to Vincennes and Terre Haute, stealing whatever they can get their hands upon-horses and money, they seem to have a particular desire for.

TheRegulators who cruelly murdered Bingham, in Monroe county, it appears have maintained a rule of terror in that county FOR ALL BILIOUS COMPLAINTS TAKE for a long time, committing the most terrible outrages with impunity; every one who became obnoxious to these villians, was treated with the most barbarous cruelty. Only four out of the fifty who whipped Bingham to death-because he had the courage to serve a warrant as Constable on one of their members-have been identified and arrested. In their examination at Bloomington, the evidence disclosed numerous instances of similar outrages by the same gang, upon other highly respectable citizens, who barely escaped with their lives. Upwards of thirty persons have been cruelly scourged, some eight or nine of them females! Several houses had been burned, and in one instance, \$100 that had been laid up by a very old woman, was stolen. .

Last winter an industrious, respectable and inoffensive old man upward of 70 years of age, a cripple bent with age, was taken from his house, naked, and dragged over the frozen ground and fences into the woods and tied to a tree and kicked and struck him with their fists and scourged him with rods, until he was lacerated from head to foot. He sunk to the ground insensible.' For some days the physician pronounced his fate uncertain. At the same time they assaulted and beat all the little boy and girl. They took the lad with his father was and scourged him also.

Mr. Holland was terribly cut from the top of his shoulders to his knees. The scourging was about similar to that given to Mr. Bingham, and would probably have resulted in his death, if his constitution had not been able to bear more suffering.

Mrs. B. attempted to follow them, in her noble devotion to her husband, -they had whipped her first and d-d her-and ordered her not to come further, and finally not being able to deter her otherwise, one of them fired a pistol apparantly aiming at her. They at length brought Bingham back on a horse, perfectly naked, except his socks, and throwing him off in the road, opposite the house, and calling for Mrs. B. and told her, "there he is, d-n him. if you want him come and take him." She went to him, found his head hanging in a wagon rut, apparently dying-she raised his head up in her arms, washed his face and asked him several questions. He told her he was dying and unable to go into the house .-She wrapped him up in her dress and ran

A MOTHER .- One of the murderers executed at St. Louis on Friday was a young man who had killed his wife in a fit of jealousy .-No one was admitted to withess the execution except the legal witnesses invited by the Sheriff. On the morning of the execution the aged mother of the young man implored in vain to see her son. "She was seen in the agony of despair kneeling on the steps of the jail, amid the crowd, apparently unmindful of the presence of strangers, praying earnestly for the soul of her son, her bosom heaving with convulsive agony, and her face bathed in tears. The crowd was moved by the sight of her distress, and on every side tears fell from stout hearted men as they thought of her sorrow. She was subsequently induced to leave the spot so fatal to her happiness and peace. Apparelled in deep mourning her grey hair, her woe, deep scated upon her countenance, spoke of the agony which a mother alone could feel,"

mhil-lyd wash st., st. Louis, Mo. CHOICE FARM LANDS FOR SALE THE ILLINOIS CENTRAL R.R. CO.

IS NOW PREPARED TO SELL ABOUT 1,500,000 ACRES OF CHOICE FARMING LANDS,

On Long Credits and at Low Rates of Interest. In Long Credits and at Low Rates of Interest.

"HESE Lands were granted by the Government to aid in the construction of this Road, and are among the richest and the most fertile in the world.—They extend Northeast and Northwest, through the middle of the States to the extreme South, and include every variety of climate and productions found between these parallels of latitude. The Northern portion is chiefly prairie, interspersed with fine groves, and in the middle and Southern section timber predominates, alternating with beautiful prairies and openings. The climate is more healthy, mild and equable than any other part of the country—the air is pure and bracing, while living streams and springs of excellen Bituminous coal is extensively mined, and supplies a cheap and desirable fuel, being furnished at many points at \$2 to \$4 per ton—and wood can be had at the

same rate per cord.

Building stone of excellent quality also abounds, which can be procured for little more than the expense which can be procured for little more than the expense of transportation.

The great fertility of these kinds, which are a black rich mould from two to five feet deep, and gentling rolling—their contiguity to this road, by which every facility is furnished for travel and transportation to the principal markets North, South, East, West and the economy with which they can be cultivated, render them the most valuable investment that can be found; and present the most favorable opportunity, for persons of industrious habits and small means, to acquire a comfortable independence in a few years.

Chicago is now the greatest grain market in the world—and the facility and economy with which the products of these lands can be transported to that market, make them more profitable, at the prices asked, than those more remote at government rates—as the additional cost of transportation is a perpetual tax on the latter, which must be borne by the producer, in the reduced price he re-veites for his grain, &c.

The title is perfect—and when the final payments are made, deeds are executed by the Trustees appointed by the State, and in whom the title is vested, to the purchasers, which convey to them absolute titles in fee simple, free and clear of every incumbrance, lien or mortage.

THE PRICES ARE FROM 86 TO 830. INTEREST ONLY THREE PER CENT. Twenty per cent. will be deducted from the credit price for cash.

Those who purchase on long credit, give notes payable in 2, 3, 4, 5 and 6 years after date, and are required to improve one-tenth annually for five years, so as to have one-half the land under cultivation, at the end of that time. Competent surveyors will accompany those who wish to examine these lands, free of charge, and aid them in making selections.

The lands remaining unsold are as rich and valuable as those which have been disposed of.

SECTIONAL MAPS
Will be sent to any one who will enclose fifty cents in postage stamps, and books of pamphilets, containing numerous instances of successful farming, signed by respectable and well known farmers, living in the neighborhood of the railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of barvesting, threshing, etc.—or any other information—will be cheerfully given, on application, either personally or by letter, in English, Franch or German, addressed to

JOHN WILSON,
Land Commissioner of the Illinois Central R. R. Co.,
To Office in Illinois Central R. R. Derot, Chicago, Illinois.
